Energy Efficiency Rebates Now Available

State Energy Efficient Appliance Rebate Program (SEEARP)

The American Recovery and Reinvestment Act of 2009 appropriated funds to each state for the establishment and administration of a State Energy Efficient Appliance Rebate Program. The amount available to Tennessee residents is \$5.9 million. This is a first-come-first-serve rebate program. Tennessee residents who replace an existing room air conditioner, central air conditioner, air source heat pump, or gas furnace with a new ENERGY STAR® qualified model purchased on or after April 22, 2010 are eligible to apply for the rebate. Approved applicants will receive a MasterCard® Prepaid Card via mail in approximately 6-8 weeks.

SEEARP Requirements

- Rebates will be paid on a first come, first serve basis, based on the postmark date associated with a completed, signed application with all the required documentation. When the incentive funds are exhausted, no further rebates will be paid.
- Application may be downloaded online at e-rebates.org/teearp or by calling 1-877-741-4304.
- The program is available to all Tennessee residents who are homeowners or renters. Rebate checks can only be mailed to a Tennessee address or post office box.
- **Residents may apply for one rebate per household.**
- The rebate applies to ENERGY STAR qualified room air conditioners, central air conditioners, air source heat pumps or gas furnaces that replace existing appliances and are installed within the State of Tennessee.
- **Appliances must be purchased from April 22, 2010 through February 17, 2012, subject to the availability of funds.** Purchases made prior to the official program start date are ineligible.

How to Apply

1. Visit www.e-rebates.org/teearp to apply, or call 1-877-741-4304 to request an application through the mail.
2. Identify the qualifying appliance at the top of the page and click "Proceed" to begin the application.
3. Complete the application, sign and date it.
4. Mail the completed application with a receipt that shows the date of purchase, cost, and equipment make and model, along with a copy of a recent electric utility bill.

TVA's In-Home Energy Evaluation Program (IHEE)

Tennessee residents may also be eligible for further financial assistance through the In-Home Energy Evaluation Program available through TVA and local participating power companies. Homeowners who schedule an in-home evaluation by a TVA-certified evaluator and make recommended improvements may be eligible for up to \$500 in rebates. As part of that \$500, residents may be eligible to receive \$250 toward central air conditioners or air source heat pumps through the IHEE program.

Program details may vary. Visit www.energyright.com or contact your local participating power company for more information on TVA's program.

How to Apply

1. Visit www.energyright.com and select "Schedule an Evaluation."
2. Using the contact information provided for your area, call to schedule an evaluation by a TVA-certified Evaluator.
3. Following your evaluation, make the recommended improvements through a TVA Quality Contractor Network (QCN) member.
4. Schedule a free follow-up inspection to make sure the work is installed properly.
5. Receive a cash rebate of up to \$500 per home.

SEEARP Rebates

Eligible ENERGY STAR Product Categories	Rebate Value
Room Air Conditioners	\$40
Central Air Conditioners	\$250
Air Source Heat Pumps	\$250
